

SlugPath

Sprint 3 Report

Team Slugstras

Release Name: SlugPath v1.0.0

Release Date: 03/22/18

Revision 1.1 (3/11/18)

Actions to stop doing:

None, everyone is working together and communicating very well.

Actions to start doing:

Team should continue on implementing new functionalities to application

Actions to keep doing:

Communicating. Promptly responding to messages and updating why they may be late to a discussion/scrum meeting.

Meeting every MWF for scrum meetings.

Clarify on tasks being done when not clear.

Discuss what others are doing.

Peer-coding when code is not clear to follow.

Work completed/not completed:

- User Story 1: As students, we need to prepare our presentation of our project so that we can get a good final grade.

User Story 1 Tasks

1. Create presentation -Completed-
 2. Create presentation script -Completed-
 3. Make sure each team member speaks the same amount as the others -Completed-
- User Story 2: As a user, I want to have cues to know that I am going in the right direction so that I don't get lost.

User Story 2 Tasks

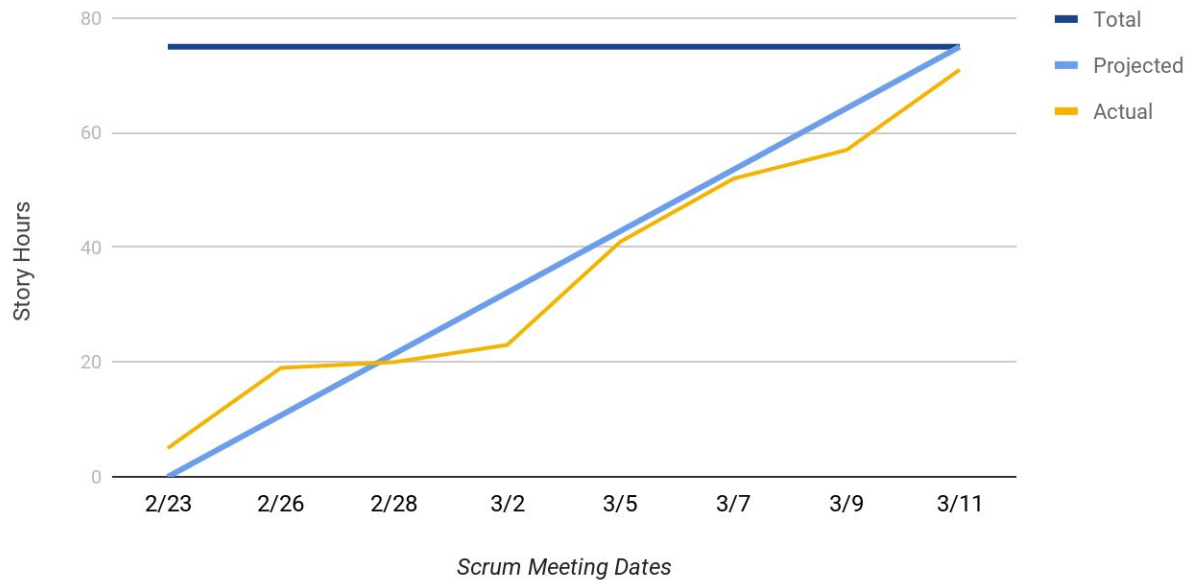

1. Provide floor plans or picture of destination -Abandoned-
- User Story 3: As a UX Designer, I need to beautify the website so that users will be attracted to the site and so that the layout is not confusing.

User Story 3 Tasks

1. Find a framework (optional) -Completed-
2. Pick consistent color scheme and fonts -Completed-
3. Make all elements scaleable -Completed-
