Heading:
Document Name: Sprint 3 Plan
Product Name: SlugPath
Team: Slugstras
Sprint Completion Date: March 7, 2018
Revision 1.1 (3-7-18)

Goal:
Collect data to populate map with accurate paths. Finish developing shortest path algorithm.

Task Listing:
- User Story 1: As students, we need to prepare our presentation of our project so that we can get a good final grade.
     <u>User Story 1 Tasks</u>
     1. Create presentation
     2. Create presentation script
     3. Make sure each team member speaks the same amount as the others
- User Story 2: As a user, I want to have cues to know that I am going in the right direction so that I don't get lost.
     <u>User Story 2 Tasks</u>
     1. Provide floor plans or picture of destination
- User Story 3: As a UX Designer, I need to beautify the website so that users will be attracted to the site and so that the layout is not confusing.
     <u>User Story 3 Tasks</u>
     1. Find a framework (optional)
     2. Pick consistent color scheme and fonts
     3. Make all elements scaleable
